# Opis stranica sajta

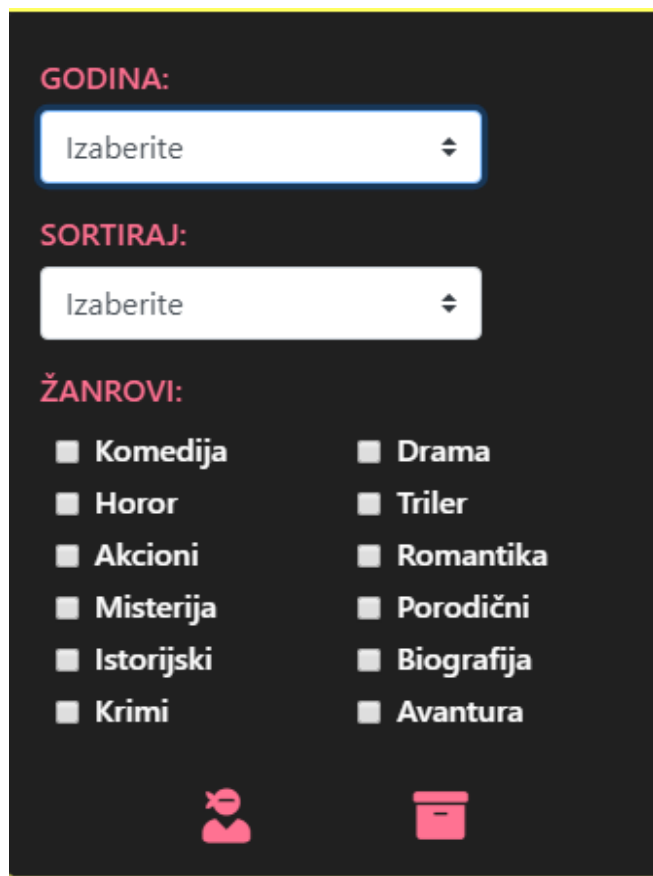

- Index.html

Dinamički se ispijuje navigacija iz fajla **kategorije.json**.

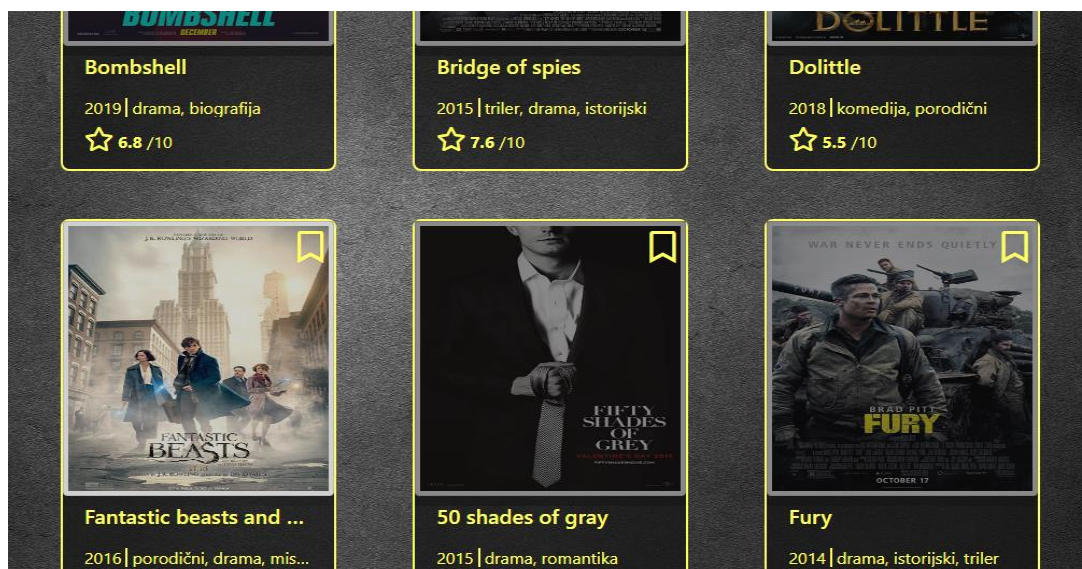

Navigacija i sidebar skrolom naniže ostaju vidljivi duž cele stranice.

Sidebar sadrži dve drop-down liste, lista za **sortiranje** popunjena je sa podacima iz JavaScript objekta, dok je lista za godine popunjena sa podacima iz fajla **podaci.json** i za nju se koristi posebna funkcija **izvuciGodine** koja služi da napravi **distinct niz godina** filmova/serija iz JSON-a, za **svaku stranicu se posebno filtrira** niz da se ne bi prikazivale godine za koje ne postoji film/serija. Takođe, sidebar sadrži **dinamički ispisane checkboxove**, podaci se nalaze u fajlu **zanrovi.json**. Na klik na jedan ili više filtrira se prikaz filmova/serija na stranici i prikazuju željeni žanrovi filma/serije.

Tu se nalaze i linkovi za dokumentaciju i stranicu o autoru, ubacila sam ih tu kako ne bi remetili temu sajta i bili višak u navigaciji.

Podaci o fimovima/serijama na stranicama dobijaju se iz fajla **podaci.json**

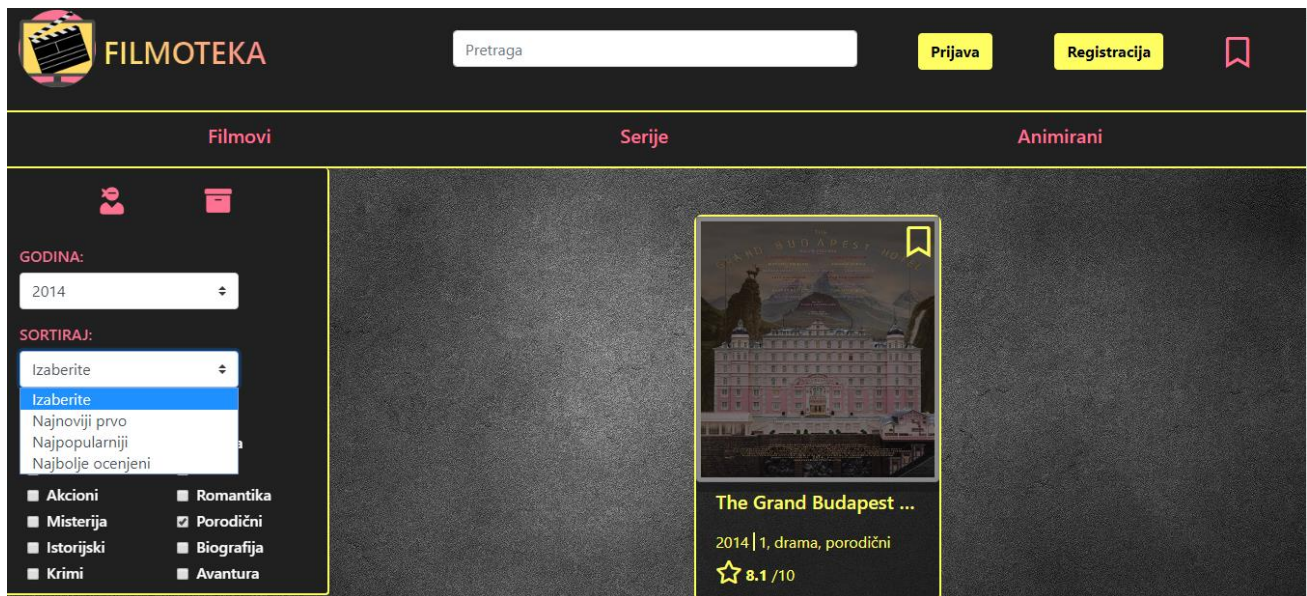

Klikom na ikonicu bookmark film/serija se upisuje u watch-listu, moguće je samo jednom upisati određeni film/seriju. Klikom više puta na isti bookmark ništa se neće desiti.
